Welcome to Volume Three of “Not from Here: Selected UFO Articles” by Preston Dennett. As with the previous volumes, Dennett explores the strange and unusual aspects of the UFO phenomenon, presenting the outlying cases that defy the standard model of UFO contact. Inside this volume, you will find:

•CAUGHT IN THE ACT

Although abduction reports number in the thousands or more, almost nobody ever sees an abduction happen. Or do they? The answer is yes, as these cases prove.

•SEE A UFO - LOSE YOUR JOB

While seeing a UFO can be an exciting event, it sometimes comes with hidden dangers. Many witnesses find themselves victims of ridicule and disbelief. Sometimes, seeing a UFO can even cost a person their job.

•ALIEN GIFTS

In very rare cases, aliens give people gifts, actual physical proof of their encounter. It almost never happens, but when it does, the results are astounding.

•TO ERR IS ALIEN

With their remarkable abilities to dart around silently in the sky, and abduct people at will, the ETs are clearly more advanced than humans. But they are not perfect. Sometimes they make stupid mistakes.

•CAN WE CONTACT UFOS WITH A OUIJA BOARD?

While most people use a Ouija board to communicate with spirits, there are now a growing number of cases in which the board is used to contact ETs. These cases provide some startling insights into the nature of the UFO phenomenon.

•UFOS OVER PRISONS

UFOs are known to be attracted to highly specific areas: nuclear power plants, dams, military installations, airports, and other technological areas. What is little known is that they are also attracted to prisons. The question is, why?

•IS JESUS AN ALIEN?

It's a question that's been asked many times, with much speculation but little supporting evidence. The truth is, there are a number of cases from across the world in which people claim to have met Jesus aboard a UFO.

•IS BIGFOOT AN ALIEN?

Most UFO cases do not involve Bigfoot, and most Bigfoot cases do not involve UFOs. But in a tiny percentage of cases, these two phenomena perfectly intersect, revealing a mysterious and powerful connection that has yet to be fully explained.

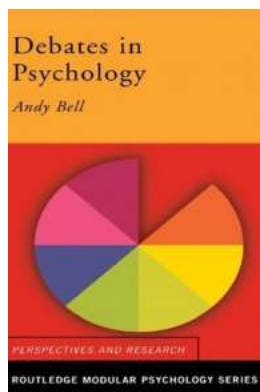

•THE TRUTH BEHIND ALIEN ANAL PROBES

It's a subject that's received much ridicule and media attention, but little serious analysis. Are people actually being anally probed by ETs? And if so, why? What exactly are the ETs looking for?

•IF YOU BUILD IT

The aliens seem to be on a mission. In case after case, abductees are taken into the engine room of a UFO and told how it works. In a few of these cases the abductees have used their knowledge to actually build an engine based on what they learned from the ETs.

Ten chapters, each exploring a unique area of the UFO phenomenon. Supported by cases from early history to the current day, coming from across the United States and the world, "NOT FROM HERE: VOLUME THREE" makes a valuable contribution to our understanding of these strange visitors to our planet.
