

# America, the Taliban, and the War through Afghan Eyes: A Shocking Revelation!

As the world watches the news unfold in Afghanistan, it's vital to understand the perspective of the Afghan people themselves. In this eye-opening article, we delve deep into the true realities of the war and its impact on both America and the Taliban through the lens of Afghan eyes.

## Understanding the Afghan Experience

For decades, Afghanistan has been the battleground for various conflicts, including the Soviet invasion, civil war, and the ongoing fight against terrorism. The Afghan people have endured unimaginable hardships, loss, and displacement due to these conflicts.

## America Enters the Scene

Following the terrorist attacks of September 11th, 2001, the United States launched a military campaign into Afghanistan, aiming to dismantle Al-Qaeda and remove the Taliban regime. This intervention was seen by many Afghans as a necessary step towards peace and liberation.

## Taliban Resistance

The Taliban, a fundamentalist Islamic group, rose to power in Afghanistan during the 1990s and enforced an extreme interpretation of Sharia law. After their removal, they regrouped and launched a resistance movement against the

American invasion. This created a violent and complex scenario for the Afghan people caught in the crossfire.

## **The High Human Cost**

The war in Afghanistan has taken a devastating toll on the Afghan population. Thousands of Afghan civilians, including women and children, have lost their lives or been severely injured. The impact on mental health, infrastructure, and education has been equally disastrous, leaving lasting scars on the nation.

## **American Efforts and Mistakes**

While America's initial intervention aimed to bring stability and democracy to Afghanistan, there have been missteps along the way. The Afghan government, often plagued by corruption and inefficiency, has struggled to fully establish control over the country, creating opportunities for the Taliban to regain influence.

## **The Taliban's Return**

Surprisingly, the past years have seen the Taliban regain significant territory and power within Afghanistan. This resurgence has shocked the world, raising questions about the effectiveness of America's military efforts and the true motivation of the Taliban.

## **Unveiling Afghan Perspectives**

Examining the war through Afghan eyes provides a fresh perspective on the conflict. Many Afghans feel disillusioned and betrayed, caught between the oppressive rule of the Taliban and the unintended consequences of American intervention. Their voices must be heard to truly comprehend the intricate web of emotions and grievances that exist within the country.

## **The Path Forward**

As the Western world grapples with the aftermath of the Taliban's return to power, it is crucial to listen to the Afghan people and involve them in the decision-making process. Supporting sustainable development, empowering local communities, and prioritizing global cooperation can pave the way towards a brighter future for Afghanistan.

The war in Afghanistan, seen through Afghan eyes, serves as a poignant reminder that the world must prioritize the well-being and agency of affected communities. By recognizing the complexities of the conflict and amplifying Afghan voices, we can work towards a more just and peaceful world.

PULITZER PRIZE FINALIST

NATIONAL BOOK AWARD FINALIST

WINNER OF THE RIDENHOUR PRIZE

Anand Gopal's No Good Men Among the Living stunningly lays bare the workings of America's longest war and the truth behind its prolonged agony.

"Essential reading for anyone concerned about how America got Afghanistan so wrong. A devastating, well-honed prosecution detailing how our government bungled the initial salvo in the so-called war on terror, ignored attempts by top Taliban leaders to surrender, trusted the wrong people, and backed a feckless and corrupt Afghan regime . . . It is ultimately the most compelling account I've read of how Afghans themselves see the war." --The New York Times Book Review

In a breathtaking chronicle, acclaimed journalist Anand Gopal traces the lives of three Afghans caught in America's war on terror. He follows a Taliban commander, who rises from scrawny teenager to leading insurgent; a U.S.-backed warlord, who uses the American military to gain wealth and power; and a village housewife trapped between the two sides, who discovers the devastating cost of neutrality. Through their dramatic stories emerges a stunning tale of how the United States had triumph in sight in Afghanistan—and then brought the Taliban back from the dead.
