Making Sense of the Situation

The family quickly realized that what they had found was indeed an eagle, one of the most iconic birds of prey in the world. They were in complete awe of its beauty and presence. Questions immediately filled their minds - How did it get here? Where did it come from? Was it injured? They knew they had to take immediate action to ensure the safety and well-being of this extraordinary visitor.

A Call for Help

The Thompsons contacted their local wildlife rescue center, who were equally astonished by their discovery. Experts arrived promptly to assess the situation and provide necessary assistance. They carefully examined the eagle and determined that it had likely become disoriented during migration and ended up in an urban area instead of its intended destination.

Gentle Rescue Operation

Rescuing an eagle requires specialized skills and equipment. With the guidance of the wildlife experts, the Thompson family created a safe barrier around the airing cupboard, ensuring the bird couldn't escape or cause harm to anyone. One

by one, with patience and care, they guided the eagle out of the cupboard and into a large crate, using gloves to protect themselves from its sharp talons.

Awe and Gratitude

With the eagle safely secured, the family couldn't help but feel a mix of awe and gratitude. They marveled at the fact that they had been so fortunate to witness such a rare and majestic creature up close. They were also deeply thankful to the wildlife rescue center for their expertise and prompt response, as well as to their community for the outpouring of support and excitement surrounding this extraordinary event.

A New Lease on Life

Following the rescue operation, the eagle was transported to a nearby sanctuary where it could receive specialized care and rehabilitation. The experts believe that with some rest and recuperation, the bird will regain its strength and eventually be released back into the wild, continuing its remarkable journey.

A Lasting Impact

The encounter with the eagle left an indelible mark on the Thompson family, reminding them of the wonders of nature and the importance of preserving the environment. They now actively support local wildlife conservation initiatives and have become ambassadors for raising awareness about the protection of birds of prey.

Discovering an eagle in the airing cupboard is a story that is sure to captivate the imagination of many. The Thompson family will forever cherish this once-in-a-lifetime experience and share it as a remarkable tale of an unexpected encounter with one of nature's most magnificent creatures.

AN EAGLE IN THE AIRING CUPBOARD picks up where Rex Harper's first book, AN OTTER ON THE AGA, left off. It follows the fortunes of the Cornish RSPCA centre through one of its most testing twelve months. Once more it is a mixture of funny, touching and sometimes moving animal stories. And once more it features a cast of unforgettable characters, like Alfie and Blue, two hideously mistreated greyhounds that are rehabilitated at the farm, as well as the return of old favourites from Rex's first book, including his loyal dog Moss. Throughout, Rex evokes the sights, smells, sounds and spirit of the Cornish countryside in all its timeless beauty. He also encounters sickening cases of animal cruelty committed by humans unfit to care for any living thing. Funny, warm and evocative, it is a book that is, once more, set to melt and occasionally break the hearts of animal lovers everywhere.
