### Year Shape: Unveiling the Power Within Each Year

Year Shape represents the overarching theme and energy that will influence us during a particular year of our lives. Each year has a specific Year Shape, determined by the numeric vibrations present in our birthdates and the current year.

For example, if your birthdate is November 25th and the current year is 2022, you can calculate your Personal Year Shape as follows:

#### Formula: Birth Month + Birth Day + Current Year

November (11) + 25 + 2022 = 2058

### Intermediate Numberfit: Blending the Energies of Different Years

The Intermediate Numberfit reveals the dynamic interplay between the current year's energy and our own Personal Year Shape from the previous year. It

represents the bridge between two different periods of our lives and indicates the skills, challenges, and opportunities we can expect during this transitional phase.

To calculate your Intermediate Numberfit, follow these steps:

**Formula: Personal Year Shape + (Personal Year Shape of the Previous Year - Current Year Shape)**

$$2058 + (2070 - 2022) = 2106$$

Numberfit's maths, movement and mindfulness shape workout for children aged 6-7(Year 2) provides a holistic approach to education by including physical activity and mindfulness. Questions are in line with Maths Mastery and the National Curriculum for England. This worksheet is intermediate level, not right? Try the beginner or advanced worksheets.

Our worksheets and videos are designed to meet the aims of the National Curriculum for mathematics:

- become fluent in the fundamentals of mathematics, including through varied and frequent practice with increasingly complex problems over time, so that pupils develop conceptual understanding and the ability to recall and apply knowledge rapidly and accurately.
- reason mathematically by following a line of enquiry, conjecturing relationships and generalisations, and developing an argument, justification or proof using mathematical language
- can solve problems by applying their mathematics to a variety of routine and non-routine problems with increasing sophistication, including breaking down problems into a series of simpler steps and persevering in seeking solutions.

Curriculum link for year 2(age 6-7):

Pupils should be taught to:

- identify and describe the properties of 2-D shapes, including the number of sides and line symmetry in a vertical line
- identify and describe the properties of 3-D shapes, including the number of edges, vertices and faces
- identify 2-D shapes on the surface of 3-D shapes [for example, a circle on a cylinder and a triangle on a pyramid]
- compare and sort common 2-D and 3-D shapes and everyday objects
