PREFACE.

I have undertaken to write the History of the South Carolina College. It has now been in existence more than half a century, and it is believed that such a History would be acceptable to the / public. I have endeavored to trace it from its beginning to a very recent period ; to give the story of its trials, its reverses, and its triumphs. Nothing important to the truth of history has been suppressed. I might have sketched a more beautiful and attractive picture, which would have been looked upon with a higher pride and admiration. I might have passed by its irregularities, its riots, its rebellions, and the many disturbances which more than once shook it to its centre, and which, perhaps, the honor of

the College demanded should have been buried in forgetfulness'. But I have concluded otherwise. It would not have been the history of the College, and truth would have been sacrificed to taste and sentiment. But the College will not suffer by such an exposure. The honor and glory of the men to whom its government was committed, are only enhanced and augmented, as their wisdom and courage were ever sufficient for the most perilous emergency. Nor will it suffer in this respect by a comparison with others. It has nothing to fear from such an investigation. No feeling of modesty shall constrain me from saying, that from the first day of its existence to the present moment, no body of young men assembled for a similar purpose in any of the Institutions of the country, have been freer from irregularities, exhibited a higher honor and a nobler virtue, reflected more credit upon their Alma Mater, and ...
