

Discover the Fascinating World of Youmares Oceans Across Boundaries

The world's oceans cover more than 70% of the Earth's surface and are home to a vast array of marine life. They play a crucial role in shaping the climate, providing food, and supporting various industries. It's essential for us to understand the intricate workings of these oceans and how they connect and impact our lives. One such initiative that aims to explore and raise awareness about oceans across boundaries is Youmares.

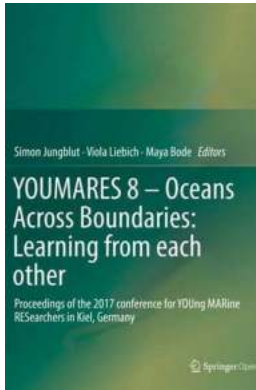

What is Youmares?

Youmares is an interdisciplinary and international network that focuses on promoting marine and maritime research. It brings together researchers, scientists, students, and professionals from various disciplines to collaborate and address the challenges faced by our oceans.

Exploring Boundaries

One of the key objectives of Youmares is to explore the boundaries of ocean research. This involves understanding how different marine systems interact, studying the effects of human activities on the ocean, and exploring the potential of sustainable marine resource management.

Research and Innovation

Youmares encourages research and innovation to enhance our understanding of oceans and develop sustainable solutions for ocean-related challenges. By promoting collaborations and knowledge sharing, it creates a platform for exchanging ideas, methodologies, and findings.

Topics Covered by Youmares

Youmares focuses on a wide range of topics related to ocean research across boundaries. Some of these include:

- Marine pollution and its impact
- Climate change and its effects on marine ecosystems
- Sustainable fisheries and aquaculture
- Marine biotechnology and bioresources

- Marine conservation and protected areas
- Marine spatial planning and governance
- Oceanography and marine geology

Events and Conferences

Youmares organizes various events and conferences to foster collaboration and exchange of knowledge. These events provide a platform for researchers and professionals to present their work, engage in discussions, and network with others in the field.

Publications and Resources

Youmares offers a range of publications and resources to disseminate research findings and increase awareness about ocean-related topics. These include scientific articles, reports, and educational material that can be accessed by the public and the academic community.

The Impact of Youmares

Since its establishment, Youmares has made a significant impact in the field of ocean research and conservation. It has fostered collaborations between researchers and institutions from around the world, leading to innovative solutions and advancements in the field.

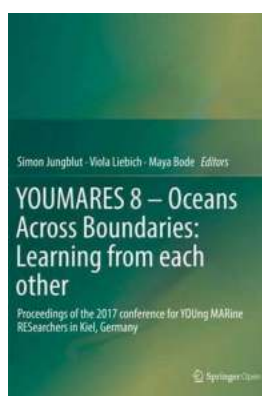

The Future of Youmares

Youmares continues to grow and expand its network of researchers and professionals who are dedicated to studying and protecting our oceans. With

ongoing research, collaborations, and the dissemination of knowledge, it aims to create a sustainable future for our oceans.

In

Youmares Oceans Across Boundaries is a remarkable initiative that brings together experts and enthusiasts to explore and address the challenges faced by our oceans. By promoting interdisciplinary research, collaborations, and innovation, it plays a crucial role in understanding and preserving our marine ecosystems for future generations.

This open access book presents the proceedings volume of the YOUMARES 8 conference, which took place in Kiel, Germany, in September 2017, supported by the German Association for Marine Sciences (DGM). The YOUMARES conference series is entirely bottom-up organized by and for YOUng MARine REsearchers. Qualified early career scientists moderated the scientific sessions during the conference and provided literature reviews on aspects of their research

field. These reviews and the presenters' conference abstracts are compiled here. Thus, this book discusses highly topical fields of marine research and aims to act as a source of knowledge and inspiration for further reading and research.
