## The Allure of Silk

Silk has been revered for centuries as a luxurious and sought-after fabric. Its natural properties and delicate texture make it the perfect choice for bedding.

Not only is silk incredibly soft and smooth to the touch, but it also offers a range of benefits that contribute to a better night's sleep. Silk has the ability to regulate body temperature, keeping you cool in summer and warm in winter. This is

especially beneficial for those who struggle with night sweats or fluctuating body temperatures.

Furthermore, silk is hypoallergenic and resistant to dust mites, making it an ideal choice for individuals with allergies or asthma. The fabric is also gentle on the skin and hair, minimizing friction and reducing the risk of wrinkles and bedhead.

They block out light and provide a soft and gentle touch against your delicate skin, allowing you to drift off into a peaceful slumber.

Davenport House is the first book in a family saga following the wealthy Davenports and their servants in 1915 America.

Mary Davenport is a 22-year-old idealist who worries that the world in the Progressive Era is leaving her behind. She lives isolated in the Pennsylvania countryside with her affluent and secretive family. When her father dies suddenly, Mary becomes pained with grief and increasingly suspicious of those around her.

A humble servant girl has the chance of a lifetime to become a lady's companion. Costly dresses, exquisite rooms, and fine dinners are pleasant distractions from what is really happening in the house.
