A historian examines the U.S. Navy's efforts to stop Axis forces from attacking Allied merchant ships providing supplies during World War II.

During the Second World War, a battle was waged to cut the lifeline of food and

armaments sailing across the Atlantic from North America. It evolved into a far-ranging conflict beyond the North Atlantic and the eastern seaboard of the United States. It covered the frigid waters off Iceland down to the warm waters of Florida, through the Caribbean Sea, across the ocean to the Bay of Biscay, the Mediterranean Sea, down to Africa, and across the South Atlantic to Brazil's southern tip. Nazi Germany's efforts to deny supplies from reaching Europe came at a high price, losing 783 U-boats and approximately 30,000 men between 1939 and 1945, with land and carrier-based naval air units sinking 83 German submarines of the 159 sunk by American aircraft. Axis forces saw their submarines targeted as well in the Atlantic, with Imperial Japanese submarine I-52 and the Italian Archimede falling victim to American naval aircraft armed with depth bombs or acoustic homing torpedoes.

All the dramatic action is captured in *Sighted Sub, Sank Same*. This book contains over 200 color and black and white photographs, as well as personal interviews, interrogation reports, personal correspondence, and after-action reports, weaving a fascinating history about the naval air campaign in the Atlantic, Caribbean, and Mediterranean Theaters during World War II.
