Flight and Flying is a collection of essays written by a Canadian pilot, flight instructor and pilot examiner. Each of the essays was published in one or more aviation journals including the COPA Journal, the Aviation News Journal and Mentor Magazine. The essays explore aspects of a variety of topics including theory of flight, flight operations, manoeuvres, takeoffs and landings, navigation, flight instruction, human factors and aviation safety.

Volume 1 of Flight and Flying focuses on the Theory of Flight, Flight Manoeuvres, Flight Instruction, Human Factors and Aviation Safety. Volume 2 focuses on Flight Operations, Takeoff and Landing Considerations and Navigation.

"Alex Burton has an engaging style of writing that is educational, yet you forget that you're learning as it is so enjoyable to read. His personal experiences and passion for aviation are seamlessly interwoven with academic knowledge throughout the essays. Alex has gifted the industry with his 'Flight and Flying' collections, which are an excellent read for professionals and students alike."
