## The Birds of Prey

One particular group of birds fascinated Morley Nelson – raptors, also known as birds of prey. He was captivated by their intelligence, strength, and predatory skills. Nelson made it his mission to study these birds and unravel the mysteries of their behavior.

## **The Peregrine Falcons**

Among the many raptors, Morley Nelson was particularly drawn to the peregrine falcons. His in-depth research on this species led to groundbreaking discoveries about their migration patterns and breeding habits.

## **The Iconic Snake River Birds of Prey National Conservation Area**

In 1950, Morley Nelson played a crucial role in establishing the Snake River Birds of Prey National Conservation Area in southwestern Idaho, one of the largest raptor habitats in the world. This protected area became a safe haven for various species of birds of prey, ensuring their survival for generations to come.

## **A Life of Adventure**

Morley Nelson dedicated much of his life to observing and documenting birds of prey across the United States. He embarked on numerous expeditions, facing harsh weather conditions and overcoming various obstacles to study these extraordinary creatures in their natural habitats.

## **The Great American Falconry**

Nelson's passion for birds of prey evolved into an interest in falconry. He became deeply involved in the sport, promoting ethical practices and advocating for the conservation of raptor species used in falconry.

## **The Legend of Morley Nelson**

Throughout his life, Morley Nelson became a legendary figure within the birding community. His invaluable contributions to the understanding and conservation of birds of prey earned him the respect and admiration of ornithologists and nature enthusiasts worldwide.

## **A Legacy of Conservation**

Morley Nelson's tireless efforts positively impacted both birds of prey and their habitats. His legacy continues to inspire new generations of conservationists and bird lovers, urging them to protect and preserve these magnificent creatures.

## **The Power of Birds**

Birds have played an essential role in shaping our ecosystems for millions of years. They provide vital services such as pollination, seed dispersal, and pest control. Observing birds in their natural habitats gives us a glimpse into the delicate balance of nature and reminds us of our responsibility to protect it.

## **The Importance of Bird Conservation**

Bird populations worldwide face numerous threats, including habitat destruction, climate change, and poaching. Conservation efforts are crucial to ensure the survival of endangered bird species and to safeguard the overall biodiversity of our planet.

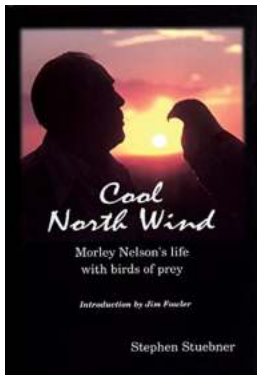

## **Getting Involved**

If you feel inspired by Morley Nelson's story and want to make a difference, there are several ways you can get involved in bird conservation:

- Support local and international bird conservation organizations through donations or volunteering.

- Create bird-friendly habitats in your own backyard by planting native plants and providing food and water sources.
- Participate in citizen science projects to collect data on bird populations and contribute to scientific research.
- Spread awareness about the importance of bird conservation through social media, educational campaigns, or community events.

Morley Nelson's remarkable life journey alongside birds serves as an inspiration to us all. His dedication and passion for bird conservation continue to have a lasting impact on the preservation of these beautiful creatures. By learning from his story and taking action, we can contribute to a brighter future for birds and the entire natural world.

Morley Nelson is one of the driving forces behind the wildly successful worldwide effort to save birds of prey from extinction. His television work with Disney, John Denver, Nell Newman, Vanessa Redgrave and Marlin Perkins helped bring the plight of the world's raptors into the national consciousness and in doing so fueled subsequent conservation efforts. His status among falconers and those

concerned with the preservation of birds of prey is legendary. But his story is much more than this.

A decorated member of the Army's 10th Mountain Division, Nelson was wounded during the 10th's famed assault on Nazi positions in Italy's Appenine Mountains. He has traveled the world advising and teaching school children, Saudi kings, presidents, politicians and Hollywood celebrities about the beauty and power of the birds of prey that he loves. He has worked intimately with American business to show that saving raptors can be good for business. Most importantly, he has contributed mightily to the preservation of one of our nation's most beautiful resources. Morley Nelson is indeed an American hero. This is his story.
