This book takes a look back at an eclectic set of motorcycles and the mostly true stories surrounding them. The first section starts in the 1970s and rolls into the 1980s. These dirt bikes reflect a time of rapid technological advancements as well as a turbulent time in the author's life.

Although often under-funded and certainly lacking top-level riding skills, his ride continued through this period by sheer persistence and no small amount of luck. Through it all is a strong drive to become a better racer as well as an utter disregard of common sense.

After a long break, the stories resume in the early 2000s, well into the modern era of four-strokes and the explosion of Vet classes. At this point, the author is an allegedly responsible adult who besides racing, becomes a local moto-journalist, an active member of the Straight Arrows Enduro Riders M.C. He also held various positions on the District 23 board and was an early web site pioneer, first with the district's web site, then MXBob.com.

This passionate but only marginally skilled dirt bike racer somehow managed to cross paths with the likes of Tom Benolkin, Chuck Sun, Marty Smith, David Bailey, and other motocross legends, the very riders he so admired. Luckily for him, he never met any of them on the track.

If serious philosophical or social discussion is expected, I'm surprised you're still reading this description. If you are looking for fun stories about old motorcycles and days gone by, this book is for you
