The Origins of the Olympics

The Olympics have a rich and ancient history that dates back almost 3,000 years. The games were first held in Olympia, Greece, in 776 BC, and were dedicated to the Greek god Zeus. The event originally consisted of just one race, the Stade race, a 192-meter sprint. Over time, various other events such as long jump, discus throw, and chariot races were added, making the Olympics a grand celebration of athleticism.

Modern Olympics Begin

The ancient Olympics came to an end in 394 AD but were revived centuries later. The modern Olympic Games, as we know them today, were first held in Athens, Greece, in 1896. The event brought together athletes from 14 nations to compete in nine sports. Since then, the Olympics have become a global extravaganza featuring athletes from more than 200 countries.
