1. Christopher Marlowe: Was He the Real Shakespeare?

One intriguing theory suggests that Shakespeare was not the true author of his iconic plays and sonnets. Instead, some scholars argue that Christopher Marlowe, another renowned playwright of the time, was the genius behind

Shakespeare's work. This controversial theory has ignited debate within the literary community, raising questions about Shakespeare's true identity.

The Mysterious Death of Christopher Marlowe

Marlowe's life came to a tragic end when he was stabbed to death in a tavern at the young age of 29. Some theorists believe that Marlowe's untimely demise was not an unfortunate incident but rather an elaborate cover-up orchestrated by powerful figures who wanted to conceal his connection to Shakespeare.

2. Ben Jonson: Shakespeare's Forgotten Rival

While Marlowe is one potential contender for Shakespeare's hidden identity, there is another playwright who might have shared a powerful rivalry with the Bard – Ben Jonson. Despite being a close friend of Shakespeare's, Jonson was known for his biting wit and satirical plays, which often provided social commentary. Some argue that Jonson's influence on Shakespeare was not limited to friendship but also extended to collaborative writing.

Shakespeare and Jonson: Collaborators or Competitors?

There are instances where similarities between Shakespeare and Jonson's works have been noted, leading to suspicions of collaboration or even rivalry. The truth behind this relationship remains shrouded in mystery, but the possibility of these two great playwrights working together adds an intriguing layer to Shakespeare's legacy.

3. Thomas Middleton: A Forgotten Master

Another playwright often overshadowed by Shakespeare is Thomas Middleton. Best known for his dark and controversial works, Middleton's plays were groundbreaking in their exploration of corruption, sexuality, and the complexities

of human nature. Despite his significant contributions to English drama, Middleton's name has largely been forgotten in the annals of theater history.

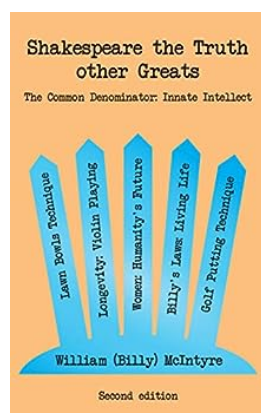

Resurrecting Middleton's Legacy

Recent efforts to revive Middleton's plays have shed light on the brilliance of his work. The rediscovery of forgotten manuscripts and reinterpretation of his plays have reignited interest in Middleton and his distinct writing style, helping us appreciate his contributions alongside Shakespeare's.

The Legacy Lives On

While Shakespeare will forever be hailed as the greatest playwright of all time, it is essential to recognize the hidden truths and other exceptional talents that existed alongside him. Delving into the lives and works of Marlowe, Jonson, and Middleton allows us to appreciate the rich tapestry of Elizabethan drama and the enduring impact it has had on literature and theater to this day.

So let us not forget the other greats, as their stories and works continue to shape the realm of theater, offering us a glimpse into the complexities of human existence through their brilliant plays.

Yes? Then you need to read Shakespeare the Truth other Greats: The Common Denominator: Innate Intellect.

You may be wondering what Shakespeare, golf and playing the violin have to do with each other, and some of the other topics in this book. Well, it's pretty simple. They're all things I enjoy - a lot. And they're all things I've learned a lot about over the years, and which I'd like to share with you here.

All the people born into this world - from before the Ancient Greeks to today and through into the future - are born with their own innate intellect level. Irrespective of education they have left their mark in their respective fields of endeavour; think of Shakespeare, Beethoven, Leonardo da Vinci and Michael Faraday. These people have one thing in common a high level of innate intellect.

Beyond the discussion of innate intellect I also venture into the fields of raising wiser children, Billy Mac's Laws on Living Life plus a technique of golf putting and a technique and strategy for playing lawn bowls. I share my experience to aid

longevity in violin playing and a proposal for women's contribution to the future of humanity.
