Book One:

Fifteen-year-old Astrid never breaks the rules; she's much too terrified of her overbearing father to step out of line. He controls her weight, her friends, and even her career path. And he doesn't approve of anyone in their family thinking for themselves.

When one impulsive decision ends in disaster, Astrid is grounded for the summer, forced to put her archery career on hold and take a menial job cleaning stalls at a posh dressage barn.

It takes a little horse named Quarry and a quirky cast of characters to banish Astrid's unhappiness and show her that she is worth something.

But when her father steps in, once again, everything Astrid has grown to love is threatened.

Author's Note: The Defining Gravity series is set in Canada so some of the terms, phrases and spelling conventions might seem unfamiliar at first to American readers. We use a variation of British English so you may notice some differences; favour vs. favor, colour vs. color, centre vs center, pyjamas vs. pajamas etc. etc.

Book Two:

Astrid doesn't argue when she's exiled to the wilds of northern Canada to stay on her long-lost aunt's ranch. It seems like as good a place as any for both her and Folly to heal after their horrific accident. Especially since Folly is angrier and more dangerous than ever.

But life in the country is full of surprises; real-life cowboys, a failing archery team that needs her help, and a funny horse named Red who would rather nap than work.

The path to fixing Folly isn't easy and as Astrid grows increasingly terrified of her volatile horse she realizes she'll need to reach out to the people who care about her if she wants to come out of this situation alive.

Book Three:

Moving back to Vancouver Island with her new horse, Red, seemed like a good idea at the time but now Astrid is seriously doubting her decision. Her family is just as crazy as ever, her archery career is taking a path she doesn't like and her best friend Hilary is acting so strange. The only solid thing in her life is the horses and her friend Rob who is turning out to be someone she doesn't want to lose. But when life at home becomes unbearable Astrid has to decide if finally standing up for herself is worth risking everything.

Happy Reading!
