The Intricacies of "The Horse Crucified And Risen"

The artwork features a life-sized horse suspended on a wooden cross, reminiscent of the crucifixion of Jesus Christ. The horse is rendered with meticulous craftsmanship, its muscles and sinews brought to life with astonishing attention to detail. The artist's chosen medium adds an additional layer of complexity – the horse is constructed entirely out of recycled materials, reflecting the interconnectedness of life and the possibility of rebirth.

The positioning of the horse on the cross raises numerous questions and invites deep contemplation. Some interpret it as a symbol of the exploitation and suffering of animals in a human-dominated world, while others view it as a commentary on the resilience and endurance of all living beings.

Furthermore, the horse's crucifixion is not the end of the narrative. The title "The Horse Crucified And Risen" hints at an underlying message of redemption and transformation. As viewers approach the sculpture, they notice delicate wings emerging from the horse's back, symbolizing liberation and ultimate

transcendence. This juxtaposition of suffering and triumph evokes a powerful emotional response in all who witness it.

This book became a best-seller in Russia, was reprinted several times and changed the worldview of millions of people. It is the first book in the history of mankind revealing the whole truth about horse and man relationships.

The book reveals secrets of horse training and discloses the truth about the painful essence of the equestrian sport. The true history of the cavalry and the history of those cruel instruments of strict enforcement that people used for horses over almost thirty centuries, never thinking that there is a completely different way...

Also, the book "The Horse Crucified and Risen" shows "how you can be with a horse, in alliance with a horse and on a horse with its consent, and not against its

will".

This film and book marks the beginning of a new era, one of mutual understanding between horses and men.

Now every horseman's life is divided into two parts: before and after "The Horse Crucified and Risen".

Nevzorov let us see in a different light what was treated as a norm for centuries.

He pointed out the only true way to a relationship between horse and rider: a way without violence, a path which horse and rider would follow together.

He gave everyone a chance to decide what position to take and to join those whose grandchildren will look into horse's eyes without any shame.

Alexander Nevzorov was one of a few people who understood the core of equestrian sport and was not afraid of calling things aloud by their names.

He was the first to say what equestrian sport really consists of:

" ... equestrian sport by nature can't be even defined as a sport. Yes, any sport includes records and victories, but these records and victories are gained by one's own sweat and blood, by one's own pains and efforts. And equestrian sport (if we study the issue) represents parasitizing on physical abilities of another living being which does not want to be engaged in this sport but forced to it by pain and beating. So why the hell we call it a sport?"

A. Nevzorov "The Horse Crucified and Risen"

Alexander Nevzorov's contribution to the development of horsemanship is priceless. He did a seemingly impossible thing; he understood the mechanism of the natural horse's collection, without any artificial aids. Nevzorov's horses at liberty, at lunge, in hands and while mounted always move in a perfect balanced collection without a bridle. It is necessary to point out that during training Nevzorov never uses bridles or any other restraint, only the cordeo - a thin strap that lies free on a horse's neck.

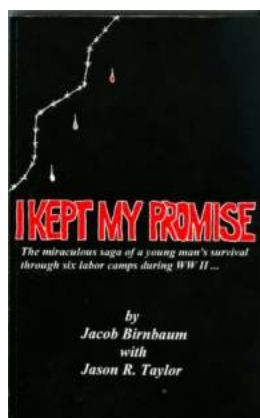

He educated his horse to read, write and so communicate which was demonstrated in LEP film.

Certainly all this did not happen at one stroke. Alexander had to go a long and difficult way to understand the essence of horse and man relationship. It took years of studying and self-examination for him to admit his own faults, repent and to start everything from the beginning. Then the understanding between horses and him developed to a phenomenal extent.

However I am sure that he will not stop at this stage and will go further. What he will achieve at the end... Let's not guess and just wait for new films and books.

But one thing is clear: this way leads to understanding of human and horse's souls.

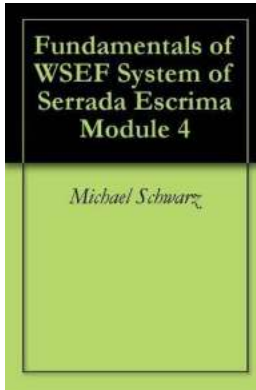

Alexander Nevzorov is a famous Russian journalist, film director, politician, scientist, writer and horseman. He founder of the Horse Revolution and Nevzorov Haute Ecole - the art of horsemanship in its highest form, where he has managed to keep the tradition of Classical School horsemanship without a bit or bridle for riding in collection. He is an award-winning author of many films including "Horse Crucified and Risen" and "NHE Principles", as well as world-changing books and hundreds of articles.
