Secrets the Jesuits don't want Christians to know

Out of Europe, a voice is heard from the secular world that documents historically the same information told by ex-priests. The author exposes the Vatican's involvement in world politics, intrigues, and the fomenting of wars throughout history. It appears, beyond any doubt, that the Roman Catholic institution is not a Christian church and never was. The poor Roman Catholic people have been betrayed by her and are facing spiritual disaster. Paris shows that Rome is responsible for the two great world wars.

Author Edmond Paris explains why he wrote this book...

"The public is practically unaware of the overwhelming responsibility carried by the Vatican and its Jesuits in the start of the two world wars -- a situation which may be explained in part by the gigantic finances at the disposition of the Vatican

and its Jesuits, giving them power in so many spheres, especially since the last conflict."

"In fact, the part they took in those tragic events has hardly been mentioned until the present time, except by apologists eager to disguise it. It is with the aim of rectifying this and establishing the true facts that we present in this and other books the political activity of the Vatican during the contemporary -- activity which mutually concerns the Jesuits."

"This study is based on irrefutable archive documents, publications from well-known political personalities, diplomats, ambassadors and eminent writers, most of whom are Catholics, even attested by the imprimatur."
