## 1. Tepui Swift

The Tepui Swift is a remarkable bird found in the cloud forests surrounding the Tepui tabletop mountains. Its swift and agile flight makes it an impressive sight as

it navigates through the misty mountains. The Tepui Swift has a distinctive black plumage with a white belly and a forked tail. Look out for this beautiful bird as it swoops and soars in the air!

## **2. Orinoco Softtail**

The Orinoco Softtail is a rare and elusive bird endemic to the wetlands of the Orinoco River basin. With its unique soft and fluffy plumage, it is often mistaken for a cuddly toy. This small bird can be found perched on tree branches near marshy areas, where it sings enchanting melodies that echo through the vast wetlands. Witnessing the courtship dance of the Orinoco Softtail is truly a magical experience!

## **3. Venezuelan Woodstar**

The Venezuelan Woodstar is a tiny hummingbird species that inhabits the lowland forests of Venezuela. This charismatic bird is known for its vibrant plumage, with the males displaying iridescent green feathers. They are often seen perched on delicate flowers, feeding on nectar with their long bills. Keep your eyes peeled for these beautiful creatures as they flit from one flower to another in search of sweet sustenance.

#### **4. Crested Eagle**

The Crested Eagle is one of Venezuela's most formidable raptors with its powerful build and majestic presence. Found in the dense rainforests of the Amazon basin, this bird of prey possesses a unique crest atop its head, giving it its name. With a wingspan of over six feet, the Crested Eagle soars high above the treetops, searching for its next meal. Spotting this awe-inspiring bird is a true highlight for any birdwatcher visiting Venezuela.

Venezuela remains a hidden gem for birdwatchers, offering a remarkable diversity of avian species. With the Birds of Venezuela Helm Field Guides by your side, you can fully immerse yourself in the stunning world of Venezuelan birds.
