This fully illustrated history chronicles the evolution of Hellenistic warfare from the death of Alexander the Great to Rome's conquest of the region.

This book provides a complete and detailed analysis of the organization and equipment employed by the armies of the Hellenistic States. After Alexander the Great's death in 323 BC, his immense Macedonian empire was divided between his generals, who in turn formed their own monarchies across Eastern Europe, Asia and North Africa. This work will follow the development of the Hellenistic military forces from the army bequeathed by Alexander to the complex military machines that succumbed one by one in the wars against the expanding Romans.

Fully illustrated with color photographs, this volume also shows how Hellenistic forces were strongly influenced by Roman models during the last years of independence of their kingdoms. The states analyzed are: Macedon, Seleucid Empire, Ptolemaic Egypt, The Greco-Bactrian Kingdom, Armenia, Pergamon, Pontus, Cappadocia, Galatia, The Bosporan Kingdom, Epirus, Sicily, The Achaean League and The Aetolian League.
