Devastated by a catastrophic potato blight that led to widespread starvation and disease, millions of Irish men, women, and children sought refuge in foreign lands. This traumatic event not only shaped the course of Irish history but also established the foundation for the Irish Diaspora.

Throughout the 19th and 20th centuries, Irish immigration continued to flourish, primarily driven by economic factors such as poverty, limited job opportunities, and political unrest. The Irish found themselves dispersed across the globe, establishing vibrant communities in places like Boston, New York, and Liverpool.

A history of the Irish migrant experience across the globe, as told through real-life stories from throughout the centuries.

Ireland is known worldwide as a country that produced emigrants. The existence of the Irish “diaspora” is the subject of this fifth installment of the Irish Perspectives series. From the early Christian era, Irish missionaries traveled across Europe. From the early modern period, Irish soldiers served across the world in various European armies and empires. And in the modern era, Ireland’s position on the edge of the Atlantic made Irish emigrants amongst the most

visible migrants in an era of mass migration. Ranging from Europe to Africa to the Americas and Australia, this anthology explores the lives and experiences of Irish educators, missionaries, soldiers, insurgents, from those who simply sought a better life overseas to those with little choice in the matter, all establishing an Irish presence across the globe as they did so.
