### How to Make Ninja Impact Smoke Bombs

Creating your own Ninja Impact Smoke Bombs is easier than you might think. Here's a step-by-step guide to help you get started:

#### Step 1: Gather the Ingredients

To make your smoke bombs, you will need the following ingredients:

- Saltpeter
- Sugar
- Baking Soda

- Sawdust
- Sand
- Food Coloring (optional)

## **Step 2: Mixing the Base**

Mix equal parts of saltpeter and sugar together. This will serve as the base for your smoke bomb. For enhanced effects, you can add a small amount of baking soda to the mixture.

## **Step 3: Adding the Binding Material**

Slowly pour in the sawdust while stirring the saltpeter-sugar mixture. The sawdust acts as a binding agent and allows the smoke bomb to hold its shape when ignited.

## **Step 4: Enhancing Colors (Optional)**

If you want to add a touch of color to your smoke bombs, now is the time to add a few drops of food coloring to the mixture. Stir well until the color is evenly distributed.

## **Step 5: Shaping the Smoke Bombs**

Scoop a handful of the mixture and tightly pack it into a small container or mold of your choice. Make sure to leave enough space in the center to insert a fuse.

## **Step 6: Drying and Hardening**

Let the smoke bombs dry and harden for at least 24 hours. During this time, the mixture will bind together, ensuring a longer and more impactful smoke effect.

## **Step 7: Igniting the Smoke Bombs**

Once the smoke bombs are fully hardened, carefully remove them from the molds. Insert a fuse in the center, and find a safe outdoor area to ignite your creation. Stand back and prepare to be amazed by the spectacular smoke display!
