“ un gioco di critto-enigmistica applicata alla letteratura classica mondiale”.

il primo dei giochi vede l'applicazione di un sistema matematico ad opere letterarie di fama mondiale trattando i testi nelle versioni in lingua originale. per la soluzione del sistema dovranno essere considerare tutte le lingue presenti senza escluderne alcuna ed individuando i riferimenti inseriti nelle pagine. il secondo e terzo gioco più “semplici”, sono tabelle nelle quali il fine è individuare la giusta sequenza che permette di ottenere il percorso risolutivo.

I testi di seguito utilizzati se risolti correttamente, non sono lesivi della dignità altrui e non sono offensivi nei confronti di alcuna persona.

La scelta dei testi è stata fatta nel rispetto della L.633 aprile 1941 e s.m. (Legge 22 aprile 1941 n. 633 - Protezione del diritto d'autore e di altri diritti connessi al suo esercizio - - Art. 25 - I diritti di utilizzazione economica dell'opera durano tutta la vita dell'autore e sino al termine del settantesimo anno solare dopo la sua morte.)

"A critto-enigmistic game applied to world class literature."

The first of the games sees the application of a mathematical system to world famous literary works by treating the texts in the original language versions. The system solution will have to consider all the languages present without excluding any of it and by identifying the references in the pages. The second and third most "simple" game, are tables in which the goal is to find the right sequence to get the resolution path.

The following texts used if properly resolved, are not harmful to the dignity of others and are not offensive to any person.
