Sorry I just finished the book and honestly its a little too short. Damn. But its just as good as the other books too, you just gotta give it a chance. The ending will shock you as Norika Jims emerges victorious. But yeah i tried to make more chapters and stuff but honestly dont have time, i have to do more MMA training and play Mortal Kombat X to increase my Skills. But one thing is, i tried making the font bigger to increase the page count but it looked stupid like a book for babies so i put it back to 12 font size. I think it looks fine and honestly this is a good amount of pages, if you want more pages just read it a second time. And dont forget theres 3 other books, I assume you read them already and I dont have to explain ALL that back story. Get with the program and buy all my books. I need the money.

BTW it does include a really good bonus content and some cool illustrations (pictures). Thanks!!!
