The papers published here are dedicated to the memory of Ellen N. Davis, one of the most valued and beloved Aegean scholars of her generation. All of the

articles are in some way inspired or influenced by Davis' own contributions to the field. In the area of metalwork, several papers investigate interconnections within and around the Aegean during the Early, Middle and Late Bronze Ages (Betancourt, Ferrence and Muhly, Weingarten, Kopcke), while others examine metal ware in its social context (Wiener). Papers on wall painting range from studies of pigments and optical illusions (Vlachopoulos), to representations of water (Shank). Anthropomorphic representations, or their absence, of goddesses or priestesses (Jones), rulers (Palaima), or initiates (Koehl) are also studied here with new eyes and fresh insights.
