“The real The Fault in Our Stars.” Auckland libraries

“Her writing is funny and truthful and wise, exactly like the Harriet we got to meet when she visited the set last year.” Peter Jackson, filmmaker

Harriet Rowland — known as Hat — was 17 when she was diagnosed with osteosarcoma, a rare form of cancer that began in her knee.

Going through treatment was often a lonely time, as friends — while supportive — didn’t always understand Hat’s new life. Until she fell in love with the character Hazel Grace from John Green’s novel *The Fault in Our Stars*, a girl who talks honestly and openly about living with cancer. Like her, Hat found life changed in ways that were both good and bad: falling in love and hospital stays among them. And she was surprised by how much happiness there was still to find.

Throughout her journey, Hat kept a blog called *My Experience of Walking the Dog*, and this book, is a collection of those posts edited with the author. Why the blog title? Her parents say cancer is like a dog — fine if it stays in its own yard. Hat’s dog got out. This is her unexpected story.

"This way I will NEVER have to get a job, learn how to cook more than two-minute noodles or do anything mildly productive. I never have to grow up and I can forever be a kid! Though my ‘forever’ is shorter than most, I don’t mind. What I do mind is that I am going to have to leave everyone I love behind." Harriet
