rebellion, fueling debates and discussions throughout the United States.

The Role of American Sympathizers

" "The Canada War": Contemporary American Accounts of the Upper and Lower Canada Rebellions of 1837" is a collection of American and Canadian newspaper reports about the 1837 rebellions in Canada. These articles were published at the time that the revolts were taking place.

In the 1830s Canada was a British colony divided into two main provinces, Upper Canada (modern-day Ontario) and Lower Canada (modern-day Quebec). Upper Canada was a mostly English-speaking province, while Lower Canada was mainly French-speaking.

The first Europeans to colonize the Canadian mainland in the early 17th century had been the French. While France occupied the St. Lawrence River Valley in modern-day Quebec, England colonized the east coasts of what is now the United States. Meanwhile the Dutch settled modern-day New York State. The French colony in Canada was known as New France, and its capital, Quebec City, was heavily fortified.

The Dutch colonies eventually came under English control, leaving the French and English to compete for control of the continent. The French and British fought a series of wars through the 17th and 18th centuries. These wars were often international in scope, and involved fighting in Europe, the Caribbean, India, and elsewhere, in addition to North America.

Finally, during the Seven Years' War (known in North America as the French and Indian War), the British captured the French stronghold of Quebec in 1759 at the Battle of the Plains of Abraham.

This victory brought all of central-eastern North America under British control. In the 1770s, however, the English-speaking colonists of the 13 colonies rebelled against British rule. The American Revolution, or American War of Independence, ended with British recognition of the independent United States in 1781.

This left Britain with control of modern-day Canada, whose mainly French-speaking residents had not joined the English-speaking Americans in their revolt against the British. The American Revolution sent Loyalist Anglo-American refugees fleeing into Canada. Many settled in modern-day southern Ontario, which the British turned into a new colony, called Upper Canada, in the 1790s.

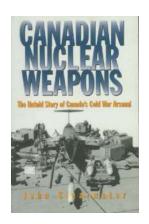

In the 1830s some of the people of Upper and Lower Canada began to call for more representative and democratic government, like that of their American neighbors to the south. The most radical reformers wanted to establish an independent Canadian republic like the Americans had earlier.

But the Canadian radicals focused more on rhetoric than serious preparations for an armed revolution. When the revolts broke out in 1837 they were unplanned. In November 7, 1837 Canadian patriot supporters rioted in Montreal, in Lower Canada (Quebec). Authorities tried to arrest the leader of the Reform Party, Louis-Joseph Papineau, and supporters. Armed conflict broke out when the patriots put up armed resistance to the officials who had come to arrest them. Fighting spread across the province, but the better armed government troops soon defeated the rebels. One of the largest battles was fought at a rebel-held church in Saint-Eustache.

In English-speaking Upper Canada, the leader of the local Reform Party, former Toronto mayor William Lyon Mackenzie, quickly organized a rebellion of his own when news of the Lower Canada revolt reached the province.

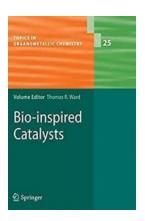

Mackenzie's followers gathered at a tavern at Yonge and Eglinton streets, in what is now North Toronto / Davisville. The rebels marched south to capture the city, but were defeated by the local militia. After that Mackenzie's revolt collapsed and rebels deserted.

Both Papineau and Mackenzie fled to the United States, hoping to re-organize their supporters to invade Canada with American help. Many Americans were sympathetic to the Canadian rebels, but invasion efforts were unsuccessful. Eventually both men were allowed to return to Canada, and the British government granted Canadians more representative, democratic, parliamentary g
