The Enigma That Changed the Course of History

One such moment was the onset of the Great War, a conflict that engulfed the globe and reshaped the world as we know it. As we delve into the depths of history, let us shine a light on the soldiers who endured unimaginable hardships during this dark chapter of human history.

The Rise of Empires and a Clash of Nations

As the world stood on the brink of the 20th century, the power dynamics among empires were shifting, tensions were mounting, and countries were aligning themselves in alliances. The assassination of Archduke Franz Ferdinand of Austria-Hungary became the spark that ignited the fire of war. Millions of soldiers, from both sides of the conflict, were thrust into a maelstrom of violence that tested their strength, resilience, and sanity.

The Tragedy of Trench Warfare

The trenches became a symbol of the horrors endured by soldiers during the Great War. Endless days spent in mud-soaked ditches, plagued by disease, malnutrition, and devoid of any comforts of home. These soldiers braved the constant bombardment of enemy fire, facing the uncertainty of survival on a daily basis. Each moment spent in the trenches was a reminder of the fragility of life and the mental toll it took.

This book is an innovative comparative history of how German and British soldiers endured the horror of the First World War. Unlike existing literature, which emphasises the strength of societies or military institutions, this study argues that at the heart of armies' robustness lay natural human resilience. Drawing widely on contemporary letters and diaries of British and German soldiers, psychiatric reports and official documentation, and interpreting these sources with modern psychological research, this unique account provides fresh insights into the soldiers' fears, motivations and coping mechanisms. It explains why the British outlasted their opponents by examining and comparing the motives for fighting, the effectiveness with which armies and societies supported men and the combatants' morale throughout the conflict on both sides. Finally it challenges the consensus on the war's end, arguing that not a 'covert strike' but rather an 'ordered surrender' led by junior officers brought about Germany's defeat in 1918.
